

Strengthening civil society in the Danube Region for a joint Europe

As part of the 13th International Danube Festival Ulm/Neu-Ulm 2024

Project: “Caring Communities”

Implementation by

Diakonie Baden and Partners

Supported by

Interreg

Objectives/focus of work:

To foster innovative transnational collaborations in homecare and community building.

Capacity building in three programs:

- System Innovation Lab tackles system challenges in respective Countries
- Accelerator program offers professional support to actors who already developed an innovative solution
- Transnational Innovation Program aims to build capacities for and to strengthen transnational collaboration structures in the field of homecare and community-based service

The project is scientifically supported and evaluated by the universities of Heidelberg/Germany, Zagreb and Sofia

Target group: Innovators from the field of (home-) and community building, but also all actors who can contribute to improving the lives of care-dependent persons, e.g., public organisations of all territorial levels, social services providers, informal caregivers, volunteer-

Cooperation partners:

18 partners from 9 Countries of the Danube Region

Important findings/results/experiences:

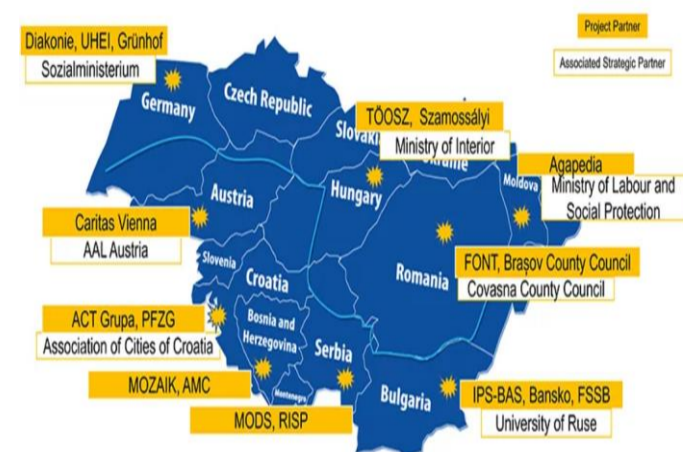

We all face similar challenges regarding home-care. Creating transnational collaborations can foster synergies and disseminate and scale innovative ideas to other countries.
